

CAPABILITIES STATEMENT

We design and deliver innovation and reliability into plant growth chambers, biological incubators and special application research chambers for universities, government institutions and corporations both domestically and internationally.

OUR PRODUCTS

- Algae Growth Chambers
- Arabidopsis Growth Chambers
- Biological Incubators
- Drosophila Research Incubators
- Low Temperature Incubators
- Plant Growth Chambers
- Plant Germination Chambers
- Plant Tissue Culture Chambers

CLIENTS INCLUDE:

- United States Department of Agriculture
- National Institute of Health
- Cornell University
- Iowa State University

THE PERCIVAL DIFFERENCE

Since 1950, Percival Scientific, Inc. has been providing state-of-the-art scientific equipment to research labs across the globe.

In 2016, Percival Scientific, Inc. was given the President's E-Award for Exports. The award is the highest recognition any U.S. entity can receive for making a significant contribution to the expansion of U.S. exports.

Today, Percival Scientific, Inc. manufactures more than 100 different models of plant growth chambers and incubators. Our products are found in all 50 states and in more than 79 countries around the world. We have distributor relationships throughout the globe and business partners on every continent, with the exception of Antarctica.
